## Cloud Subject Matter Expert

### Contract

We are interested in qualified candidates with the capability and experience to manage Cloud Migrations.

The successful applicant will:

- Have good interpersonal communication skills and the ability to participate in a team/project with several (possibly remote) team members.
- Have strong written, verbal and leadership skills
- Strong customer relationship skills
- Possess the technical skills, qualifications, and knowledge to:
  - Manage project scope and customer expectations, as a delivery leader in the field
  - Setup and manage technical workshops
  - Develop a pragmatic cloud strategy for our clients
  - Execute a proven cloud roadmap including migrations to the cloud
  - Demonstrate in-depth skills in at least one of the following technology areas:
    - Server or Storage Virtualisation
    - DC Migrations
    - DC Networking
- Be able to demonstrate significant 'hands on' experience in this field of work including:
  - 5 years plus proven experience as a successful infrastructure specialist. It is a requirement that candidates have experience as SME in DC migration or consolidation projects and demonstrated client relationship management experience.
  - Cloud Migrations – including experience with private, hybrid or public cloud technology
  - UNIX and x86 based server technologies including AIX and Windows, VMWARE ESX etc
  - Microsoft Server Technologies ( AD, SQL Server, IIS, SharePoint, Exchange)
  - Desirable:
    - Virtualization experience (VMware, Xen, HyperV)
    - Storage Technologies (DAS, NAS, SAN & Cloud Storage)
    - Knowledge of ITIL processes
- Possibly have background or experience as Solutions Architect or similar role

Be based in Sydney and hold a valid visa for working in Australia
